ELISE FEDERAL (std), EXIGE 2 (post VIN82395).**

Mulsanne B shown with side mount subframe  
Also shown with R01SI0007 seat cushion trim kit.

## INTRODUCTION

Mulsanne B is a single skin carbon/composite seat developed for applications where light weight and low cost are of priority. The front of the seat has a high quality Auto-clave moulded gloss finish.

This performance seat has been specifically developed for the Lotus Elise S1/S2/111R/Federal, Exige S1/S2, 340R and VX/VXR220 range of cars with tailored fitting kits to suit each model (when ordering you should state Lotus/Vauxhall model and chassis VIN no). Due to the compact dimensions of the seat it has also proven to be an ideal fitment to vehicles with limited cockpit space.

## **WARNING, MOTORSPORT OR DRIVING CAN BE DANGEROUS RESULTING IN DEATH OR PERSONAL INJURY. READ OUR FITTING INSTRUCTIONS CAREFULLY**

This article is sold without warranty expressed or implied. No warranty or representation is made as to this product's ability to protect the user from injury or death. The user assumes that risk. ## UV-PROTECTION

Please Note Epoxy Pre-preg products are not UV stable. Texallium products are particularly liable and can yellow in only 2 – 6 weeks. The epoxy resin will 'yellow' with prolonged exposure to UV radiation and material strength properties will slowly deteriorate. We recommend exterior products or those exposed to constant UV are either colour painted or at least Lacquered. We use predominately 2K car lacquers of medium solids, the DBS range has been found very suitable, although people have had equally good results with Urethanes varnishes and epoxy clear coats.

The surface should be sanded with 180, 240 then 320 grit and a cleaning solvent used to remove grease or dirt prior to paint application. Several coats may be required (normally 3 to 4 light coats) to avoid pin-holing, common with painting composite products. Pin holes may be dubbed in carefully with a brush, then wet flatted for a final application of 3 thin coats. **Let air dry only**, you may stove the paint at 70'c once fully air dried.

## PART NUMBER IDENTIFICATION

Reverie part numbers are in red eg **R01SI6002A**

Lotus part numbers are in green eg **A111V0012J**

## C120 TYPE SUB-FRAME GENERAL INFORMATION

The C120 type adjustable drivers side sub frame can be used once fitted with the ReVerie A340 spec drivers side sub-frame conversion kit. The C120 type passenger side sub frame needs to be replaced with a Lotus A340 type passenger side sub frame. A full passenger side A340 sub-frame kit is available from ReVerie Ltd.

The owner should refer to the MSA blue book for the correct installation of harnesses for competition.

### Drivers side (double sheer conversion kit)

Rear

2 \* Bolt Cap head M8 \* 12mm (12.9 spec)

2 \* Washer Penny M8

Anchor

2 \* Bolt Lotus spec double sheer (short) 7/16 \* 38mm (R01SI6037A)

2 \* Spacer Lotus spec steel double sheer 7/16 (R01SI6047A)

Front

2 \* Bolt Cap head M8 \* 12mm (12.9 spec)

2 \* Washers small OD M8

Subframe

1 \* Outside double sheer bracket (RHD=R01SI6042A LHD=R01SI6054A)

1 \* Inside double sheer bracket (RHD=R01SI6041A LHD=R01SI6052A)

1 \* Front slotted cross member (R01SI6040A)

### Passenger side (A340 sub-frame kit)

Rear

2 \* Bolt Cap head M8 \* 12mm (12.9 spec)

2 \* Washer Penny M8

Anchor

2 \* Bolt Lotus spec double sheer (short) 7/16 \* 38mm (R01SI6037A)

2 \* Spacer Lotus spec steel double sheer 7/16 (R01SI6047A)

Front

2 \* Bolt Cap head M8 \* 12mm (12.9 spec)

2 \* Washers small OD M8

Subframe

1 \* Sub-frame 340R spec static Passenger side (RHD=R01SI6035A LHD=R01SI6036A)

## FITTING INSTRUCTIONS

### LOTUS SEAT AND SUB-FRAME REMOVAL

- A. Remove existing seats and sub frames from car by undoing the four bolts per sub frame attaching sub frames to chassis (retain bolts).
- B. Remove the seats from the sub frames by undoing the six retaining bolts, 2\*M8 bolts at the rear (discard), 2\*Lotus spec shanked long 7/16 in-side seat belt bolt's (discard), 2\*spacer's (discard) and 2\*spring's (retain), 2\*M8 nuts underneath front of seat (discard).

### FITTING MULSANNE SEAT AND A340 SPEC BRKTS TO STD DRIVERS SIDE SUBFRAMES (HARNESSES AND STD SEATBELTS)

A.

Remove both rear brkt's and front cross brace from the sub frame, retain all bolts and washers.

B.

With the std Exige S2 rear brkts removed loosely bolt (you will tighten them later) the double sheer A340 spec brkt's in place using the bolts and washers retained.

C.

Loosely bolt the A340 spec cross brace in the position shown noting which holes are used (RHD sub-frame shown, mirror fitment for LHD)

D.

Place the seat on the sub-frame and thread in the supplied M8\*12mm bolts and small dia M8 washers, leave loose for the moment to allow the seat a little float.

F.

Install to the inside brkt the provided short 7/16 lotus spec bolt's retained spacer's and seat belt. Repeat for the outside brkt, Leave loose for the moment to allow the seat a little float.

G.

Insert the two M8\*12mm bolts and penny washers provided and tighten. The rest of the retaining bolts can now be tightened including the sub-frame out-side brkt's and cross brace.

H.

If using OEM 340R harness belts (A340U6005S) a crutch strap is included the steel bar mounts under the sub frame and sits over the M8 studs under the front of the seat. If using another harness either 5 or 6 point than the straps should be taken through the seat and to a secure fixing on the chassis.

## **FITTING MULSANNE SEAT TO A340 SPEC PASSENGER SIDE SUB-FRAME (HARNESSES AND STD SEATBELTS)**

Follow step's D to H of driver's side seat to sub-frame fitment guide.

## **REINSTALLING SEAT AND SUB-FRAMES TO CHASSIS**

The seats and sub-frames can now be reinstalled into the car, the passenger side can be bolted straight in, the drivers side should be bolted in loosely to the chassis and the seat ran back and for on the sub-frame runners several times until it runs smooth, the sub frame to chassis bolts can then be tightened.
