MULSANNE SEAT CUSHION KIT

- .) Affix velcro onto foam pads (black foam version only). We recommend using the hook side on the pads & the loop on the seat so if you remove the pads the seat remains comfortable.
- .) Fit pads in position on the seat as shown. Position the pads in relation to your seat position for maximum comfort.
- .) When removing the pads from the seat hold the velcro on the underside so you don't rip the foam .
