### **Scope:**

Reverie Limited are a thriving composites business with a World renowned brand in motorsport and the auto aftermarket for their top quality, niche, well engineered products. Reverie also carry out sub contractor and build to print composite design, development and manufacturing for automotive Tier 1 / OEM and blue chip clients in many market sectors.

Established in 2000, with year on year growth and recent investments in new machinery, facilities and staff to support, we now seek an experienced Laminator to support our Production Manager.

In this role the successful candidate will be responsible for learning how to do laminating, vacuum bagging and autoclave curing high quality, high end pre-preg autoclaved components to drawings and/or manuals. You will also be responsible for ensuring that the high company standards of production are maintained.

## **Responsibilities Laminating:**

- Handle composite materials and follow established Health & safety procedures
  - Hand laminate composite components to specifications provided by project engineers / manuals / drawings
  - Prepare components for autoclave cure utilizing vacuum bagging practices (training will be given).
  - Prepare tooling patterns and moulds using chemical sealers and release systems
  - Fabricate moulds from supplied patterns
  - Follow build manuals and quality control processes
  - Consult and resolve quality issues as they arise, in consultation with project engineers
  - Maintain a Positive attitude towards learning and gaining knowledge from others.
  - Take a responsible positive work ethic and focus in the laminating areas.
- 
- Maintaining and providing own hand tools required as per reverie equipment lists.
  - Checking and using correct issue documentation for assigned tasks.
  - Shop floor data collection and identification of all parts produced.
  - Quality of work to required specifications.
  - Responsible for re freezing of pre-preg daily as required.
  - Ensure immediate feedback is provided to direct manager where customer satisfaction or Health & Safety may be threatened.

## **KEY PERSONAL ATTRIBUTES**

- Project a positive enthusiastic attitude and takes a flexible approach to their role
- Demonstrates a commitment to achieving objectives
- Able to produce consistently high-quality work
- Shows pride and enthusiasm in their work
- Good attendance and time keeping
- Excellent interpersonal skills with High level written and oral communication
- An eye for detail and pride in making things by hand

## **Desirables:**

- An understanding of engineering drawings
- A practical 'hands on' person, Comfortable using common hand and power tools
- Previous composite laminating experience is an asset, but specific training will be provided as required
- Basic understanding of composite component construction is an asset
